

**Sichuan mianyang 404 hospital**  
**Medical advice**  
**of the Corona Virus Disease 2019 (COVID-19)**

In order to ensure your medical safety and avoid cross-infection during the prevention and control period of the novel coronavirus epidemic , also called Corona Virus Disease2019 ( COVID-19 ) , according to relevant national regulations and requirements, we hereby inform you of the relevant matters in our hospital as follows:

**Medical advice for Outpatient**

1.It is recommended to use the official WeChat, website, telephone and other online registration methods to register.

*Webiste-<http://www.scmy404.com>*

*WeChat-SCMY404YY*

*Telephone-0816-2333342*

2.Visit the hospital 15 minutes in advance according to WeChat and SMS prompt.

3.No one shall accompany the patient for medical treatment. If necessary, no more than one companion per patient.

4.Patients with fever or history of epidemiology should go to the

fever clinic directly according to the guidelines.

5. Please wear the mask correctly when the patient and company enter the hospital. Do not discard the used mask at will. Please put it into the special bucket for mask recycling.

6. Patients and their companions need to undergo three-level triage of screening for the COVID-19 at the entrance of the outpatient clinic, the entrance of the consulting room and the consulting room of the hospital. Please take the initiative to cooperate with the staff in temperature measurement and other screening work.

7. At present, the department of ophthalmology, otolaryngology and stomatology of our hospital is only open for emergency, while the outpatient service will be suspended until further notice.

### **Medical advice for hospitalization**

1. Patients with outpatient pre-examination triage list, ID card, social security card in the second floor of the admission office for hospitalization and appointment procedures.

2. Chest CT screening was performed in the CT room on the first floor.

3. The patients were sent to the ward nurse station to be

hospitalized with the outpatient pre-examination triage sheet and admission certificate.

4. Inpatients are not recommended to be accompanied in principle, but if necessary due to the disease, the company should be fixed, and the company certificate should be issued after screening the company for the novel coronavirus epidemic.

5. For the doctor-patient communication of special diagnosis and treatment patients such as surgery and intervention, please cooperate with the doctor to complete the communication by telephone, WeChat and other online means, and confirm that one client will come to the hospital at the agreed time to complete the signature procedures and other related work.

### **Resume production health screening tips**

In order to actively cooperate with enterprises and institutions in our city to resume work and production, our hospital has set up a rapid treatment center for returning workers, which can provide screening service for the novel coronavirus epidemic.

Group screening can come to the hospital, we also provide door-to-door service, if necessary, please contact the hospital health management center director Luo (tel. : 13508120120) for consultation.

We are sorry about the inconvenience. Thank you for your understanding and cooperation!
